

# SAFE SPACES: Bullying Prevention Education for Young Children

**SAFE SPACES TEACHES YOUNG CHILDREN THE SKILLS THEY NEED TO RESIST AND PREVENT BULLYING.** Learning empathy, emotional literacy and peaceful problem solving at a young age reduces the likelihood that bullying will occur as children become older.

**SAFE SPACES NURTURES CHILDREN'S SELF-ESTEEM AND TEACHES THEM TO CARE ABOUT OTHERS.** Children learn to express their emotions without hurting each other. They are encouraged to help each other, to be kind, and to use peaceful problem solving skills.

**SAFE SPACES ESTABLISHES A BULLY FREE ENVIRONMENT.**

Safe Spaces ideas can be used anywhere children are - at home, in child care, in a drop-in program, at school or in the neighbourhood.
